AUDITORS' REPORT

We have examined the accounts of the several town officers for the official year ending February 15th, 1900, and find that in nearly all cases the accounts of the same have been kept in a correct manner, and vouchers for money expended, in most cases have been produced.

We would suggest, however, that the Road Agents be more careful in making up their accounts, and specify more in detail the several sums expended by them and for what purpose; also to pay out no money, in their position as such agents, unless properly receipted for. While in the main we have no doubt of the correctness of their accounts, still, we think, there is evidence of carelessness or inattention on their part in making up their accounts, and think an improvement might be made as suggested.
